# LETTER FROM OUR MANAGING DIRECTOR

## Message from the desk of M.D. - Mr. Abhishek K Agarwal

Hello Everyone.

It is our objective and pledge to ensure we generate value for our stakeholders and be a company of choice for our employees. It takes immense pleasure to announce our dedication towards our goal and we have been successful for the last many years.

Bigger business would lead to bigger responsibility, not only towards the interested parties, but also towards parties in whose life we can make a difference.

TWC also pledges to complete in an innovative way our Corporate Social Responsibility towards our society, thus making our world a better place. We have taken multiple steps towards education, animal safety, infrastructure development, medical etc. and more to come in future as well.

Regards

# LETTER FROM OUR DIRECTOR

## Message from the desk of Director - Ms. Sashi Agarwal

Hello,

Our world is marked by significant environmental and social changes. We are all responsible for addressing the challenges that exist in the society we are a part of. That also includes our Company Techno Waxchem's contribution to society.

We want our contributions towards our society to be meaningful and sustainable, and we wish to create a long-term impact. So, our focus is on business-driven Corporate Social Responsibility (CSR), the integration of social and environmental considerations.

Our social commitment is to become a responsible Company, and to focus on influencing the development of society in a more responsible direction. Thus, we strive to be the best version of ourselves - both as a Company and as People, to ensure that the difference we make is meaningful and sustainable ways.

We aspire to be responding to the World in need, maintaining our focus on the future, moving forward with purpose and finally to be the most inclusive Company in the world.

**Regards**

Sashi Agarwal

# LETTER FROM HEAD HR / PEOPLE OFFICER

## Message from the desk of Head HR - Ms. Indira Bhattacharya

We believe that, together, we can create a better future for all—one that is equitable and inclusive.

To achieve this, we must continuously look at ways to improve our environment, focus on the characteristics that demonstrate who we are, and create positive experiences for everyone at TWC.

We intentionally create an environment where all employees can innovate and thrive. This is what we call a Conscious Culture. It creates an environment where we can develop cutting-edge solutions for our customers, thereby helping them to overcome their toughest obstacles.

It enables growth and profitability of our business while setting us apart from our competitors. It means that every one of us is aware and focused on the impact that we have on others.

It's about seeing, embracing, and valuing differences of all kinds by strengthening the connection with those who are different from us. This brings out the best in our people, and it empowers us to be creative and challenge norms that no longer serve us.

Our Conscious Culture is our way of being, and this is what drives our commitment to serving, our communities. We hold ourselves, as well as our customers, partners, and suppliers, accountable for serving global communities and creating a safe environment for all.

Sincerely Yours,

**Indira Bhattacharya**

# OUR APPROACH & GOVERNANCE TOWARDS CSR

## Corporate Social Responsibility at TWC

We are committed to operating an honorable and socially responsible company. We believe corporate social responsibility (CSR) represents a long-term investment that serves to strengthen our operations and competitiveness in the marketplace, enhance risk management, attract, and engage talented employees, and maintain our reputation.

Our CSR strategy plays an important role in the current and future success of our company. It also serves to embolden our workforce, enrich our planet, and positively impact people around the world.

Our approach to corporate social responsibility is built upon the company's long and enduring legacy of engagement in our workplaces and communities and our actions to protect the environment.

## CSR Oversight

Corporate social responsibility at TWC is overseen directly by our Head Finance, in close coordination with our Chief Executive Officer, Manager Human Resource and each of our business segment leaders. These individuals are supported by a network of teams addressing policy development, strategy, program management, business integration, and compliance.

We review environmental, social, and governance (ESG) developments on an ongoing basis to ensure we are addressing relevant issues.

Our assessment of the most salient issues forms the foundational basis of our CSR strategy and the content of our annual CSR reporting.

## Our Social Impact Activities

We are committed to providing comfort to those in need and inspiration and opportunity to those who want to improve their world. We do this through cash and in-kind contributions, employee volunteerism and local collaboration, and our signature social impact programs.

Throughout our community engagement initiatives, we strive to leverage the best of our assets and capabilities to make a unique contribution for social good.

TWC is committed to creating and maintaining workplace environments that support our employees.

We care about our people and their individual needs and strive to provide employees with opportunities to achieve their aspirations, personally and professionally.

No matter what their circumstances, everyone who works at TWC should know that they work for a company that is focused on helping them and their families live the best lives.

# OUR ENVIRONMENT APPROACH

## Environmental Approaches

At TWC, we believe in taking a cohesive approach to environmental sustainability, in accordance with national and international standards and mandates that encourage businesses to adopt more environmentally friendly practises.

Considering that we have two production sites and two R&D facility, we strive to take a methodical approach to reducing our operations' environmental impact while meeting our customers' requirements.

We concentrate on resource optimization (including materials and water), emissions reduction and energy consumption reduction, and responsible waste management.

Our goal is to be one of the industry's leaders in operational eco-efficiency.

Our environmental management system has been accredited to ISO 14001:2015 standards.

# OUR WORK FORCE

Employees are our most valuable resources.

**RAIN WATER HARVESTING/  
CONSERVATION/ USAGE**

It is in these areas that we believe we have the potential to make the most significant contributions to the development of society. We will continually adjust the weighting of the different areas in the light of changes in society, as set out in the following sub-sections.

We wish to contribute to the transition to a more sustainable society and see long-term potential in making sustainability part of a well-managed and sound business model. This includes actively supporting sustainable social development in investments with a focus on selecting companies with sustainable business models, strong management, and sound and responsible business practices.

**A meaningful work life = “We believe in people over systems”**

Ensuring the culture and social inclusion, focus on well-being, inclusion, meaningfulness, influence, trust, Ethics Training, Code of Conduct and openness.

In line with the TWC – Human Resource Policies & Procedures Manual, TWC upholds fairness among all employees, suppliers, vendors & contractors and values honest and upholds fair & legal

conduct in all business relationships. TWC expects that all business activities shall be conducted in a highly ethical manner.

Employees engaged by TWC have significant influence over TWC's reputation. Employee's action in dealing with others will have effect on how the company is viewed by others.

Our Code of Conduct governs how our employees are expected to act: displaying integrity in the workplace, in the marketplace and in their communities when representing the Company.

## **Ethics Training and Education**

Training is a critical aspect of reinforcing an ethical culture.

Every year, all eligible salaried employees are required to review the Code of Conduct and complete Ethics related Training, which emphasizes four areas: the topics found in TWC's Code of Conduct, guidelines for protecting TWC's informational assets, respectful workplace (anti-bribery, anti-harassment, diversity, whistle blowing, non-discrimination) and safety (including both product and workplace safety).

Although these topics are covered every year as part of Work-Force Training, the courses are updated annually with new content, new scenarios, and new exercises.

# OUR SUPPLY CHAIN PRACTISES

## The CSR Committee shall

We have implemented sustainable parameters across various areas of the business.

However, it is equally important to integrate it throughout our product's value chain, including our suppliers, vendors, whole sellers, and partners. This also helps in the education of our associated business partners and suppliers on sustainability standards and the reduction of social and environmental risk.

To build an inclusive business environment, we developed processes and systems to evaluate suppliers and other external service providers not just on quality parameters and technical strength, but also on sustainability parameters.

We hope that by doing so, we will be able to demonstrate our dedication to a cleaner, greener environment as well as our social responsibilities. The company has a formal policy for sustainable procurement that is reviewed on a regular basis to ensure that it is still assisting us in achieving our vision. We encourage our supply chain partners to review this information and ensure that the policy's principles are followed in their ongoing business dealings with us. Audits of our key suppliers' sustainability are also an important part of our supply chain framework.

In 2022, we mainly focused on our 18 Critical Category (A) suppliers starting from CSR Risk assessment, signature on supplier code of conduct and supplier assessment. We also sent letter to the suppliers to emphasize our vision 2025 and their importance on our value chain system. We declared our new approach of giving reward for top performance supplier to motivate and improve their performance. We also planned to develop our suppliers through training on sustainability issues. In future, we have a plan to do on-site-audit of our targeted supplier.

# LOOKING AHEAD

At TWC, we are constantly inspired by the opportunities and challenges of building our brands and businesses in this time of massive change and disruption. We consistently transform our business in order to be responsive to the needs and preferences of our consumers, suppliers, and employees.

Ultimately, we anticipate that the ways in which we contribute to society can play a critical role in leading our company, and our stakeholders, to a more sustainable future. We work hard to ensure that we consider a diverse range of stakeholder voices and perspectives to shape our corporate social responsibility (CSR) efforts, strategy, and disclosure.

We intend to continue to strengthen reporting and disclosure of priority issues, with an aim to provide decision-useful information. We are also committed to finding new and engaging ways to reach diverse audiences with stories and inspiration related to TWC CSR.

In 2022, we will continue our work to integrate the TWC businesses. These businesses are expected to align to TWC's policies and achieve the same ambitious goals that are in place for the legacy company. The year ahead will also prove to be a pivotal year for our environmental strategies.

We will strive to further and drive innovation throughout our business segments. We will also continue to strengthen our commitments to our workforce, within which assistance towards mass education, health and wellness remains a top priority.

At the end of the day, we believe there are no limits to where care and concern can take us. We are inspired by the amazing events and actions that surround us every day. We hope to remain inspired in creating an even brighter tomorrow.
